

### PETITION FOR TRAFFIC CALMING EFFORTS ON AUBURN DRIVE

In the last few years, we have observed an increase in traffic and vehicular speed on our street. Residents leaving their driveways, pedestrians using the sidewalks, and children playing in the neighborhood have been placed at high risk due to these dangerous conditions.

As a result, we are petitioning to have undulations installed on Auburn Drive. Undulations would contribute to the safety of residents and visitors and improve the quality of the neighborhood by

- Reducing traffic flow
- Reducing traffic congestion
- Reducing vehicle speeds to a safer speed of 25 mph or less
