

IVY TOWN NORTH SURVEY 2003

attachment

July 2, 2003

Dear Neighbors,

At a recent neighborhood meeting, approximately 30 residents from Ivy Town North met along with a representative from the City of Davis to discuss the creation of a neighborhood association. A neighborhood association is any group of area residents working together to open and improve lines of communication with the city and amongst themselves. A neighborhood association works together in an inclusive and collaborative manner to address issues affecting their neighborhood. A neighborhood association is not a Homeowners Association. The City Council encourages the formation of neighborhood associations and looks favorably upon their concerns. It was fun to meet more residents from the neighborhood and discover that many people share the same concerns for the neighborhood. Most importantly many residents care about the neighborhood and want to protect its single family character.

The neighborhood association has not officially been created. During the meeting many issues and concerns were brainstormed for inclusion in a survey to the entire neighborhood. The survey is attached. The map below shows the proposed boundaries for the association. It is important that a neighborhood association address the issues important to its members. To help us further develop our association, please take a minute to respond to the attached survey. A neighborhood association is run by volunteers and is only as strong as we make it. *We need your help!* If you are willing to work with a group of neighbors to address certain issues please indicate it either on the survey or a separate correspondence.

Please return the enclosed survey to Anne Brunette at the City Offices on the corner of 5th and B Streets by July 18th. You can place it in the drop box in the parking lot at the city offices located at 23 Russell Blvd, or deliver it to Anne in the Parks Department or mail it to 23 Russell Blvd. phone (530) 757-5626; fax (530) 758-0204. If you have any question feel free to contact Ellen Halteman who initiated the contact with the city at 1136 Menlo Drive, 758-5146.

Have a great Fourth of July weekend!
