New Mexico Broadband & Smart Grid Summit

August 16th, 2010

8:00 AM – 12:00 PM

Moriarty Civic Center
202 Broadway, Moriarty, NM 87035

Please join U.S. Senators Jeff Bingaman and Tom Udall this August 16th for an important discussion on how broadband and smart grid development can create economic opportunity and increase energy independence in New Mexico.

Co-hosted by USDA Rural Development, this summit will bring together policymakers and industry leaders to begin a dialogue on meeting two great infrastructure challenges of our time: building advanced broadband networks and a modern electric grid.

Your participation in the New Mexico Broadband & Smart Grid Summit on August 16th will help inform future policy decisions to promote job growth and energy independence.

More information will be available soon. We hope to see you there.
