Subject: Response to Your Letter of June 18, 2012

Dear Chairman Hadley:

Thank you for your June 18, 2012, letter summarizing the most recent meeting of the Trinity Adaptive Management Working Group (TAMWG). I appreciated the opportunity to provide a Trinity Management Council (TMC) update during the meeting and answer several questions posed by TAMWG members.

The TMC is aware of the concerns raised by Ms. Gail Goodyear over the last several months, as again described in her June 11, 2012, letter submitted to the TAMWG. Because Ms. Goodyear's concerns are primarily associated with the structure and approach utilized to obtain scientific data and study outcomes within the Trinity River Restoration Program, we have thus far determined that it would be most effective that the Program's science staff address her concerns. Though they have met on several occasions, Ms. Goodyear has clearly not yet received satisfying answers to her concerns. We will encourage Program staff to continue the dialogue with Ms. Goodyear.

We appreciate your acknowledgement that the TMC has adequately addressed the recommendations and concerns expressed in previous letters, and renew our pledge that we will make every effort to be timely in addressing future matters brought forward by the TAMWG. We appreciated the opportunity for the TMC/TAMWG to meet jointly on August 20, 2012, which furthered our discussion of the Trinity Hatchery Review Report by the California Hatchery Scientific Review Group and the Restoration Program Phase I review.

Again, thank you for your letter.

Sincerely,

Brian Person
Chairman, Trinity Management Council
